WORK EXPERIENCE

CUSTOMER SERVICE

REGIOJET A.S / BRNO, CZECH REPUBLIC / JULY 2022 - JULY 2023

In RegioJet, I was responsible for the smooth "sailing" of our customers. This job taught me how to deal with angry customers. How to calm them down and help them find the solution to arrive at their destination. It simply taught me important soft skills under sometimes brutal pressure situations and made me appreciate the importance of a well-functioning team.

BARTENDER

MUSIC LAB S.R.O / BRNO, CZECH REPUBLIC / JUNE 2021 - OCTOBER 2021

EDUCATION

FACULTY OF ARTS

Philosophy

Masaryk University / Brno, Czech Republic / September 2018 - June 2022

Studying philosophy gave me methods for critical thinking and showed me the importance of rational debate. I learned how to structure my thoughts and how to express them, especially through writing. I also developed a yearning for reading and learning new stuff.

COURSE OR CERTIFICATE

ADVANCED HTML AND CSS, JAVASCRIPT, REACT

The Odin Project / July 2022 - October 2023

The main resource on my learning journey was the Odin Project. It is a great resource with the exact syllabus that gives you a path to finally getting a job as a web developer. I chose the paths of Javascript and React.
